Calgary B. of T. En- joyed Visit To Pass

Suggest Return Trip Be Made By
Business Men of Towns
Visited By Them

J. H. Hanna, secretary of Calgary Board of Trade, recently wrote as follows to Coleman Board of Trade:

"I want to take the first opportunity I have had since returning home to express on behalf of the members of our Goodwill Party and of our Board our deep appreciation of the splendid reception given us at Coleman and your kind hospitality."

"We regret that we were unable to reach your town earlier, as it cut our visit short. However, in view of your excellent arrangements, we were able to see something of the extent of your coal mining industry and to meet quite a number of your members. We have very pleasant recollections of the time we spent with you all and hope you will arrange a trip to Calgary before long."

"Will you kindly accept for yourself and convey to the members of your Board our very hearty thanks for the courtesies extended to our party."

Yours faithfully,
J. H. Hanna,
Secretary.

A letter was also received from Mr. Fraser, of Loughheed and Taylor, expressing his personal appreciation of his visit to Coleman, and the splendid entertainment furnished

Band Concert in Park

On Sunday afternoon at 3 o'clock the town band will give a concert in the boudland in Flumerfelt park. As the band has been practising for some time in preparation for the annual competition at Calgary exhibition, a very good programme is anticipated, and a good attendance of the townspeople will serve as an encouragement to the members in their efforts to develop a band worthy of the town.

The Rev. A. D. Currie wishes to thank Mesdames Sudworth, Clifford, L. Richards, Hoyle, Thom and Mr. Alex. Morrison for nourishments during his recent illness. Also the senior and junior W. A. for flowers, Dr. Borden for his constant attention and many others for kind enquiries.

Local News

Dr. Groff of Edmonton was here this week in connection with the Workmen's Compensation Board of Alberta.

Percy Locke was installed as K. R. S. of the Knights of Pythias lodge on June 13, in succession to the late Bro Wilson, who was killed in the International mine.

Mr. and Mrs. A. F. Short will leave shortly for a holiday trip to the Pacific coast and thence to Alaska, intending to return towards the end of July.

John Salvador left on Sunday morning for Nelson, to start on a road construction contract of 15 miles for the B. C. highways department. 25 head of horses and equipment, and a caterpillar tractor were sent by him during the week for work on the road.

Mrs. Carson returned on Monday evening via the Kettle Valley railroad from the coast, after having spent five weeks there, visiting the cities of Vancouver, Victoria and Seattle. She plans on staying with her parents, Mr. and Mrs. C. R. Powell, till September.

Joe Stephenson's goats at Sentinel are becoming proficient in the art of deceiving the unsuspecting tourist, for they now make it a special time to parade around Crow's Nest Lake on Sunday, and many photographs have been taken of them during the past few weeks.

Harry Proudfoot, who on Jan. 15 was admitted to hospital with a crushed leg, which later had to be amputated, is still a patient, and despite his lengthy confinement to hospital is bearing his suffering in a cheerful manner. One of his ward companions is Archie McCulloch, and Harry says that before Archie leaves he will have to sing "There's a Wee Hoose Mang the Heather."

Paul Luvera, a former Colemanite, who for several years has been operating a grocery store at Anacortes, Wash., in sending his renewal subscription to The Journal, sends along a clipping from the local newspaper telling of a drawing at his store which drew such throngs of people that the chief of police found it necessary to divert traffic during the drawing and awarding of the prizes. He also states they enjoy receiving The Journal every week, as it keeps them in touch with the folks here.

Archie McCulloch received a nasty injury on Tuesday afternoon just before quitting time in the International mine. With his partner he was trying to place a prop in position, when a large piece of cap rock fell and caught him on the head and back, knocking him down on his face. Fortunately he was close to the mine entrance and was rushed to the hospital in very short time, where he will likely remain for a week or two. He states that he hopes to be out in good time for the opening competitions of the Rod and Gun Club.

Thrilling Experiences of Party in Ascent of Crow Mountain

Of Twelve Who Started, Six Reach Topmost Summit--Old Flagstaff
Discovered and Names of Previous Climbers--Descent
Was Nerve Trying Experience

Six hardy enthusiasts, two ladies, and four men, added their names to the roll of those who have made the complete ascent of the hardest mountain climb in the district, Crow's Nest, "The Sentinel of the Pass," on Sunday last. Three more of the party of twelve which started reached to within about 300 feet of the complete ascent, whilst three others decided to give up the attempt after ascending to a short distance above the timber line, at the point where the arduous climb commences through the notorious canyon or "chimney," as it is known locally among the climbers, and which is the only route discovered by which the ascent may be made.

There were thrills galore both on the ascent and the return, which tried the nerves of most of the party, and all were glad to reach the timber line again, but valuing the experience highly. The two ladies of the party who distinguished themselves in reaching the objective were Mrs. W. L. Rippon, and Miss Verna McDonald, to whom unstinted credit is due for their powers of endurance and tenacity. The four men were Harry Gardner, cheerful optimist of the party, and his equally cheerful and helpful companions, Mac, McCallum, H. Beach and H. Rayfield. The three who got within speaking distance of the goal were Miss Margaret Reid, Miss Gladys Price and H. T. Halliwell, who very begrudgingly had to admit that "Old Crow's" high altitude and insecure footing in the immense beds of loose rock and shale, was too much for their power to conquer, and who had to content themselves with watching their companions make the final climb to reach the topmost summit, who pointed their names with the records of previous climbers.

The view obtained is magnificent and awe inspiring, and it was an ideal day for the climb, though some snow fell during the party's sojourn on the mountain, which made the atmosphere chilly and sweaters were at times very well

come. The canyon or "chimney" was packed with snow, in which footsteps had to be cut, while several of the party experienced unpleasant slides when they commenced to slide in the loose shale, giving them fleeting visions of descending to the edge of a precipice and taking a leap into the unknown. From the top Coleman and Blairmore appeared to be just a group of dots far below, while the Frank slide and further east as far as the open prairie a splendid panoramic view is obtained. The utter absence of bird life of any kind gives an awe-inspiring silence which is uncanny, and makes one realize what a very small atom he is perched 9200 feet above sea level. One young lady remarked that if she ever reached the timber line again she would hug a tree in thankfulness for reaching safety. The descent of the canyon gave almost every one of the party the thrill of a slide, in which clothes became wet, and fortunately it was not attended with worse results. As much care had to be observed in the descent as in the upward climb, owing to the very insecure footing, for it takes very little movement to send masses of rock sliding down hundreds of feet, and woe-betide the unfortunate individual who slides with it. Early in the ascent, just above the timber line, the only casualty of the day occurred, when a small piece of rock rolled from above, where Dr. McLeod was taking a brief rest with some others of the party, and caught him on the side of the head, breaking one of the lenses in his spectacles, and almost immediately after another piece nearly caught him on the back of the head, but Harry Gardner was quick enough to sense the danger and warded off the rock with a water bottle, which (though probably saving the doctor a cracked head, sprung a leak in the only water bottle the party carried.

After making observations from the summit, the descent was commenced. (Continued on Page Five)

Local News

W. Lonsbury left on Sunday for Lethbridge as time-keeper for one of the coal companies there.

Donald Hines, soloist of Chicago Symphony Orchestra, who is acting as examiner for the Toronto Conservatory of Music, will be in Coleman on July 11 to examine the pupils of the violin of Mr. W. J. Harris' classes here and of Natal and Bellevue.

There are business men who follow the practice of buying at home but the imprint on stationery and bill heads of others advertise the fact that they were printed anywhere but in Coleman. If the entire population followed this example, we would indeed have a lovely town.

Additional store fronts painted this week are Roland Laskett's and Cabinet (Tiger Store and Barber Shop). If this keeps up Main street will soon present a decent appearance. The front of The Journal office is also being painted, which across the street the entrance schools are next in line. Among the residences that of W. L. Rippon will shortly appear resplendent in a gleaming coat of paint. Others who have recently painted their houses are Ernie Houghton, Hugh Dunlop and Chris Rogers. New paint, like new clothes, creates a mighty good impression.

Card of Thanks

Mr. and Mrs. Chas. Nicholas and family desire to thank all who sent flowers, to those who sent spiritual bouquets, and also those whose names were not mentioned last week, as the cards of a number who sent wreaths were mislaid. They also wish to thank Mr. J. E. Gillis, of Blairmore Chapter K. of C. for his kindly assistance in their bereavement in the death of their son Tony.

Good Prizes for The Community Carnival

Skating Rink Will Benefit From
Grand Carnival on Sat. and
Mon., July 20-22

A fine Chesterfield suite valued at \$375 and an electric Orthophonic valued at \$155 are the grand prizes to be awarded holders of the lucky admission tickets to Coleman's grand carnival in July. In dividend tickets at 25c may be purchased from any of the sellers, or books of 20 for \$4.50 may be purchased from McBurney's drugstore or The Journal office.

Parties taking books may either retain the entire book or sell individual tickets to their friends, and the prizes will be awarded, one on each carnival night.

Attending Convention

Mayor Burns, Councillors J. Rushton and Herb. Swadlow left by auto on Tuesday evening to attend the convention of representatives of city and town municipalities at Calgary.

ST. ALBAN'S CHURCH, COLEMAN
Sunday, June 30, holy communion 11.15 a.m. Sunday school at 2.30 p.m. Following that date the Sunday school will close till Sept. 8.

The following will attend the Diocesan summer school at Basff next week: The Rev. A. D. and Mrs. Currie and Myfanwy Griffiths from Coleman, and Margaret Grant and Lillian Rumeay from Blairmore.

The W. A. will hold a strawberry tea at the home of Mrs. F. G. Graham on Saturday, June 29.

The post-office will be open for one hour on Monday, July 1, from 9 to 10 a.m.

The Italian Ladies Society will hold a confetti dance on Monday evening, July 1.

In the best package—Clean, bright aluminum

Apply the Same Principle

During recent years there has been a decidedly better understanding between the east and the west of Canada, and between the Maritime Provinces and the rest of the Dominion, based on closer acquaintance and knowledge of the problems confronting the people in each of the major sections of this far-flung country. There is today far less of sectionalism, prejudice and misunderstanding than in any previous period of Canada's history, and, happily, this spirit of goodwill and co-operation is growing more and more pronounced.

Anything and everything that will tend to promote this wider knowledge and better understanding can only be brought about and maintained by frankness and the dissemination of knowledge. That is, eastern people must be made and kept acquainted with actual facts about the west and informed as to the views, opinions and ambitions of the west, and, vice versa, western people must be informed in like manner about the east. And it is particularly the duty of the newspapers of the Dominion to discharge this patriotic duty.

It is in the performance of that duty we would draw attention to a recent editorial article appearing in "The Financial Times," Montreal, dealing with the subject of the revision of the Grain Act. To much of that article no exception can be taken, but the whole difficulty is that it is based upon an entirely wrong conception, which fact is made abundantly evident in the concluding sentence of the article, as follows: "The important consideration is that the power, which will at the same time be a safeguard on the dependable reputation of Canadian wheat in all markets."

This may be the eastern viewpoint, but we submit the western viewpoint, and that is that the word "producer" should be substituted for the "buyer" in the sentence quoted.

The person entitled to receive first consideration in matters affecting the grading, mixing, transportation of wheat is the man who grows the wheat, not the man who buys it, or transports it, or mills it into flour. The status of Canadian wheat in the markets of the world must remain unimpaired at a high standard, not so much for the benefit of and protection of the British or foreign buyer, but in the interests of and to protect the Canadian farmer who grows the wheat in order that he may obtain full value for his product and ample reward for his labor.

Submitting the western viewpoint for the benefit of eastern people, it may well be asked of "The Financial Times," and other exponents of its dictum that in matters affecting the grain trade of Canada the important consideration "is to protect the buyer," whether it, and they, are equally prepared to accept the principle that, in all matters affecting the customs tariff, the important consideration is to protect, not the manufacturer of the financier who has invested in manufacturing industry, but the great mass of consumers of Canada, the people who "buy" the products of these factories?

If it is the "buyer" or the products of the farm who are deserving of first consideration, and who above all should be protected, then pure logic must force acceptance of the principle that it is the "buyer" of the products of the factories who must likewise be given first consideration, and their interests recognized and protected first and foremost in all matters of tariff or other legislation affecting such industries.

In other words, according to the eastern view, as they would apply it to the farmer, it is not the industry that should be protected, or those who have made investments in industry and labor in it, but the buyers of the products created by such industry. The truth is, however, that when these same interests advance tariff and other arguments in their own behalf they directly reverse the principle, and resolutely contend that it is the producing manufacturers who must receive first consideration and be accorded protection, rather than the buyers, i.e. the consuming masses of the Dominion.

Good understanding and complete national co-operation between east and west cannot be built up in this way. It is impossible to apply one principle toward western agricultural industry and an opposing principle to eastern manufacturing industry. The same principle must be applied both east and west.

Discover Radium Mines

Find In England Has Already Yielded \$5,000 Worth

Radium mines are not discovered every day, but some meteorologists, while exploring a lead near Matlock, England, had their candle lights extinguished by bad atmospheric conditions. They saw ahead of them a dimly lighted cave, and a sample of earth taken from the cave was sent to Mme. Curie, who declared it to contain radium. The mine and estate was then bought for \$450,000. Further exploration, it is stated, has resulted in the discovery of another radio active mine, which is now to be exploited. The estimated value of the radium already found is \$5,000.

Half of the world's supply of aluminum comes from Arkansas. Aluminum is never found in its metallic state, but is always combined with bauxite, granite, feldspar, mica, etc.

APPETITE IMPROVED

CARTER'S LIVER PILLS
If you have no desire for food, and you feel out of sorts, and depressed, stimulate your digestive organs. Try Dr. Carter's own formula. These pills taken after meals will aid digestion, relieve the gas, regulate the bowels, expel constipation poisons and arouse appetite. All Druggists 25c and 75c red pills.

W. N. U. 1791

Declares Allies Fear

Of Germany Absurd

Only Nation Without Arms Says Minister Of Defence

Dr. Wilhelm Groener, minister of defence, in a speech reviewing Germany's military policy charged that the states victorious in the world war have done nothing to disarm armament lines and endeavored to show that it was absurd for the allies to claim they could not disarm until they were sure of not being attacked by Germany.

Speaking of present military force, he said:

"France has, on European soil, 27 divisions; Belgium six; Poland 30, and Czechoslovakia 26 brigades, a total of 76 divisions compared with Germany's seven. Who, I ask, needs security? I can't help but be astonished that besides these troops, the other nations also possess aviation squadrons, heavy artillery and powerful reserves of trained men and war material of a kind we do not possess at all."

Double Jeopardy

A correspondent assures us that the following notice has been posted around about an electric station in Donegal: "Beware—To touch these wires is instant death. Anyone found doing so will be prosecuted."

With a population that ranks 25th among the countries of the world, Canada is fifth in total exports and third in total turnover of trade.

Keep Minard's in the Medicine chest.

Settlement Scheme Near End

Three Thousand Family Settlement Plan Has Been a Success

In a few weeks the 3,000 family settlement scheme will end and no project of like nature will take its place. Hon. Robert Forke, Minister of Immigration, stated recently. There was no desire to make the project an endless one by replacing settlers who had abandoned farms, he said.

The project had been successful in every respect, and Canada had acquired an increase of about 17,000 souls brought in. Already 3,250 families had been brought to Canada under the scheme: a total of 52,000 families had abandoned their farms for various reasons; 34 had been deported; 72 had returned to Great Britain of their own accord, while 414 remained in Canada in other employment, either in agriculture or other work.

WHAT OUR GIRLS NEED

When Languid, Anemic and Feeling Run Down

When a girl grows languid, dull and irritable, when her color fades and she becomes pale, you may be sure that the cause is anemia, or impoverished blood. The bright, red color of the blood is caused by the presence in it of millions of tiny red corpuscles. It is these tiny bodies that carry nourishment from the blood to the tissues. They also cause the glow of health in cheeks and lips. When a girl's blood is deficient in these red corpuscles her body is under-nourished, her nerves starved, and there is serious danger of a decline. What is needed is an improvement in the quality of the blood, and it is a scientific fact that a course of Dr. Williams' Pink Pills will so enrich and purify the blood that all traces of anemia and its accompanying weaknesses will disappear. An evidence of this is the case of Dr. Williams' Pink Pills in cases of this kind, Mrs. John Finnan, Howland Station, P.E.I., says: "I am glad to take this opportunity of recommending Dr. Williams' Pink Pills. My daughter was in a badly run down condition; very pale, nervous and much under weight. We tried several medicines, but they did not seem to do her any good. I decided to give her Dr. Williams' Pink Pills. Almost from the start she began to improve, and after the use of a few boxes she had gained in weight, her appetite improved and she had a better color in her cheeks. In fact she had fully regained her former good health. I would advise every mother of young girls to give them Dr. Williams' Pink Pills at the first sign of an anemic condition." You can get these pills from any medicine dealer or by mail at 50c a box from Dr. Williams' Medicine Co., Brockville, Ont.

Zeppelin's Flight Cancelled

Atlantic Trip Of German Dirigible Postponed Until 1930

A special despatch to the Telegraph Union from Friedrichshafen said that the trans-Atlantic flight to America of the dirigible Graf Zeppelin had been postponed until 1930. A flight around the world for the big airship was scheduled to start about July 15.

The Graf Zeppelin's last attempt to fly to America ended on May 17, when crippled motors forced her to turn back over Spain.

Capital invested in the world's rayon industry now exceeds \$500,000,000.

From Mother of Six

"I think Lydia E. Pinkham's Vegetable Compound is wonderful! I have had six children of which four are living and my youngest is a little baby boy now eight months old who weighs 23 pounds. I have taken your medicine before each of them was born and have certainly received great benefit from it. I urge my friends to take it as I am sure they will receive the same help I did."

Mrs. Milton McMullen, Vanessa, Ontario.

Lydia E. Pinkham's Vegetable Compound

Most of Canada's gold bullion is now refined in the Royal Mint at Ottawa.

Minard's Liniment for sick animals.

Protects Ship Against Fire

Modern Liners Have Device For Instant Detection Of Smoke

The captain on a modern liner can look into a cabinet and tell at a glance whether fire has broken out, and also in what part of the vessel. On the hull of any properly equipped ship and light a cigar; in less than five minutes the captain on the bridge can tell where you are smoking. In the captain's cabinet is a series of glass-fronted tubes, one for each hold, through which air is constantly flowing. Ordinarily you can see nothing—all is black; but with the faintest trace of smoke from the hold there suddenly appears against this black background a thin, quivering thread of blue. For within the tube is a shielded bulb of brilliant light. As long as the air current is pure there is nothing to illuminate; but the moment a wisp of smoke flows through, the light rays make it show up against the black background like a meteor.

There are other fire-detecting devices also—devices that betray a fire at the slightest change in temperature. It is after they have performed their part that the modern fire extinguishers are brought into play. These are pipes which by the simple turning of a valve, without opening the hatch, or the hold in which the fire has started, can fill that hold with live steam, in which no fire can live. Or one can flood the hold through the same pipes with carbon dioxide, and again the fire is out, with negligible damage to most classes of cargo. Or the hold can be flooded with a substance that flows over the flames like a blanket on thin foam and smothers them.

Wise and experienced mothers know when their children are troubled with worms and lose no time in applying Miller's Worm Powders, a most effective vermifuge. It is also in clearing the system of worms and restoring those healthy conditions without which there can be no comfort for the child, or hope of robust growth. It is a most trustworthy worm exterminator.

Revising Quota Laws

U.S. Will Admit Double Number Of British Immigrants

Nearly twice as many Britons yearly may enter the U.S. under the immigration quota after July 1. The Senate refused to prevent the national origin clause of the immigration act of 1924 from going into effect on that date.

It follows from the action of the Senate that the quotas of the various nations which send immigrants to the U.S. will be revised. The greatest changes will be in the quotas affecting Great Britain and Northern Ireland, Germany and the Scandinavian countries.

British immigrants to the number of 65,721 will be permitted to enter the country as against the old number of 34,007.

Unless worms be expelled from the system, no child can be healthy. Mother Graves' Worm Exterminator is an excellent medicine to destroy worms.

Bad Either Way

Scot (to friend while visiting London): "Now, mon, I can't stand taxicabs! When I sit w' ma back tae the driver, it makes me feel sick, and when I sit w' ma face tae the taximeter, it makes me feel nae better."

Professor—Go your fastest my man! I am in a desperate rush.
Taxi Driver (after speeding along for 30 minutes)—Say, you forgot to tell me where we are going.

Soft corns are difficult to eradicate, but Holloway's Corn Remover will draw them out painlessly.

Refine Gold At Mint

Most of Canada's gold bullion is now refined in the Royal Mint at Ottawa.

Minard's Liniment for sick animals.

Speckled Trout For

Jasper Park Lakes

Anglers May Expect Real Sport In Canada's Largest Mountain Playground

So successful was the experiment made by the Dominion Government last year in stocking Maligne Lake, in Jasper National Park, with trout, that a quarter of a million more fry are now growing up in the hatchery there, and will be turned loose in the great glacial lake in a few weeks time.

Eggs, the 250,000 travelled to Jasper from Cresco, Pennsylvania, last winter, and so carefully was the precious freight handled by the Canadian National Express that only 70 of the eggs failed to hatch. Arrived at Jasper, the eggs were given into the care of Warden Herbert Davis, who is carefully nursing them along. He feeds the multitude four pounds of chopped liver a day and keeps the water moving and at a proper temperature.

Early in June the fingerlings will be taken out of their trays and transported in tins to Maligne. "The fish put in there last year," says R. Langford, supervising warden, "have done marvellously well and have grown to a good size. They and the new batch are speckled trout. We expect a shipment of rainbow trout in a few weeks for Cabin Lake."

For sunburn—apply Minard's Liniment.

Canadian Jersey Breeders

Good Market In States For Canadian Bred Jersey Cattle

Writing from Tupelo, Mississippi, W. Elmo Ashton, fieldman for the Canadian Jersey Breeders' Association, points out that it is apparent to anyone going through the States of Georgia, North and South Carolina, Mississippi and Alabama that the southern states offer a great market for Canadian Jerseys. In the past year and a half these states have taken from Canada over 300 head of young bulls and heifers.

Victims From Asthma. Strength of body and vigor of mind are inevitably impaired by the visitations of asthma. Who can live under the cloud of recurring attacks and keep body and mind at their full efficiency? Dr. J. D. Kellogg's Asthma Remedy dissipates the cloud by removing the cause. It does relieve. It does restore the sufferer to normal bodily trim and mental happiness.

Small Churches In England

What is said to be the smallest ecclesiastical building in Britain is St. Margaret's Chapel, Edinburgh. This little church is only 16½ by 10½ feet. Dorset church at Winterborne Thompson, is 23 by 14 feet. Churches at Culbone and St. Lawrence are also small, having less than 320 square feet of space.

Emerald Lake, Yoho Park

Beautiful Emerald lake, in Yoho national park, British Columbia, was first visited by Tom Wilson in 1882 while searching for stray pack horses. As far as is known, he was the first white man to visit this lake.

I've forgotten

I ever had any nerves

Your doctor will tell you how the act of chewing relaxes and soothes strained nerves, and how the healthful cleansing action of Wrigley's refreshes and tones you up all round. Aids digestion.

Sheet Glass Factory

Calgary May Be Selected As Suitable Place For Establishing Plant

Calgary is very suitable for the establishment of a sheet glass factory, and it may be chosen as the site for such within a year, according to F. S. Hobbs, of Toronto, vice president of the Consolidated Plate Glass Company, who has been inspecting various cities in Western Canada with a view to locating a branch plant. A big business is being done in plate glass in the Prairie Provinces, he said, making it advisable for the firm to enlarge its present holdings.

For Cataract—It is one of the chief recommendations of "Thomas' Electric Oil" that it can be used internally with as much success as outwardly. Sufferers from cataract will find that the Oil when used according to directions will give prompt relief. Many sufferers from this ailment have found relief in the Oil and have sent testimonials.

Believe It Or Not

A small tortoise, on which Mrs. Susan Blair, now dead, carved her initials and the year "1862," 67 years ago, has been found by her daughter, Miss Mary Blair, within a mile of the original Blair home at Scottsburg, Ind.

Glimo, considered one of the most weather-beaten places in northern Norway, has a new church. To prevent its being blown away it is anchored to the rocks by heavy chains.

In The Locker Room

Minard's is the stand-by of those who take care not to suffer from stiffness and aching muscles.

TAKE MEASURES TO COPE WITH LABOR PROBLEM

London, England.—Premier Ramsay MacDonald will preside over a cabinet meeting which will have the preparation of the King's speech from the Throne for the coming Parliament as its principal business.

In the domestic field its chief interest will lie in the measures for meeting the unemployment situation. During the election campaign, Rt. Hon. J. H. Thomas, now Lord Privy Seal and minister of employment, gave some indications of Labour's unemployment plans by way of legislation.

These plans are two-fold, namely:

1. Raising the school age from 14 to 15 with allowance to parents. This is estimated to keep normally 400,000 out of industry for a year.
2. Supplementing the pensions of the workers of more than 65 years of age, so that they will be able to retire. This, Mr. Thomas estimates, will eventually relieve the labor market of another 250,000.

In Scotland, where the percentage of those in receipt of poor law relief is greater than in England, steps were taken to explore the available employment. The Scottish board of health sent an urgent message to all municipal authorities in Scotland asking them to state if they had any ground suitable for road development in anticipation of housing schemes and particulars were asked of the estimated number of men who might be employed, with the probable date of employment and the estimated cost.

While unemployment is the government's main domestic problem, it is expected the speech from the Throne will announce the appointment of a Royal Commission to inquire into the labor trade.

In regard to mines, the government is likely to face an embarrassing situation. "Labor and the nation," a pamphlet issued by the Labor headquarters, stating labor's program, pledges the party to repeat the Conservative government's program which extended the miners' day from seven to eight hours. There have been urgent complaints that if the act is repeated the mining industry will be disorganized. At the same time the officials of the Miners' Federation are demanding repeal of the eight hour clause. The executive of the federation are to meet the members of the government shortly after parliament opens.

Report Seeing Huge Meteor

Fell Into Lake Superior Says Prospector Near Soo

Sault Ste. Marie, Ont.—A strange tale was brought down to the Soo from Michipicoten Island by Frank Kusick, prospector, who said a huge meteor about the size of a ship fell into Lake Superior close to the island at 10 o'clock on the night of June 11. The meteor illuminated the island with the brilliancy of daylight and created a rumbling noise which was heard for two minutes after it fell.

Quite a sea arose after the meteor struck the water and the level of the lake rose appreciably.

Solved All Murders

London Police Report All Murders Solved In 1928

London, England.—Every murder committed in London in 1928 was solved and the culprit was convicted or took his own life, according to the official police report.

The report of the commissioner of police showed that there were 18 murders of persons more than one year old. Eleven culprits were convicted and seven committed suicide, the report said.

Will Not Re-lign

Lynn, Mass.—"I don't intend to get out, and no power on earth can make me. This old age stuff will have no effect on me." Thus said Police Chief Thomas M. Durkes, who in his 84th year and who has been a policeman for nearly half a century, recently answered persistent rumors that he was about to resign.

National Wealth Grows

Ottawa.—The national wealth of Canada exclusive of undeveloped natural resources, is placed at \$27,687,000,000 for the year 1927, in an estimate made public at the Dominion Bureau of Statistics. This is an increase of \$100,000,000 over the 1926 estimate.

Warning Was Disregarded

Cleveland Clinic Told In April That Film Used Was Dangerous

Cleveland, Ohio.—Making no attempt to fix the blame but pointing out that the Cleveland clinic had been warned of faulty X-ray storage, which cost 123 lives by fire and poison gases, May 15, Coroner A. J. Foster completed his inquest after a month of investigation in a report on file with official county records.

The warning was sent to the Ohio inspection bureau of the fire underwriters' investigating service last April. It called attention to the fire hazard in the type of film used at the clinic, urged use of another kind and advised clinic officials that the film, if burned, would generate great clouds of noxious fumes. The film was stored in the basement and was ignited by a means not determined in the investigation.

The report placed the official number of dead at 123. They were killed by a combination of nitrogen peroxide gas with carbon monoxide the coroner said.

Confesses To Bank Theft

Eighteen-Year-Old Youth Pleads Guilty In Vancouver Police Court

Vancouver.—Arthur Thomas, 18, pleaded guilty in police court to a charge of robbing the Grandview branch of the Royal Bank of Canada, and elected summary trial.

Thomas, who held up five bank employees a day, came to work, was arrested in New Westminster a few hours later and practically all of the stolen money recovered.

The bank was held up as its manager, J. W. Logan, and four other employees were arriving to commence work for the day. Each was accused as he entered and trusted up by the youthful bandit. He forced the manager and cashier to open a vault from which he seized money and then left the building by a back entrance. He left his prisoners in a cubicle, the door of which they broke down shortly after his departure.

Prepare For Another Election

Liberal Party In Britain Sees Possibility Of Another General Contest

London, Eng.—The possibility of another general election in Great Britain at no distant date is being taken into account by the Liberal party, which holds the balance of power in the new parliament.

The Liberal administrative committee passed a resolution moved by Sir Herbert Samuel, chief organizer, "to maintain and strengthen the organizations in the constituencies."

It was also resolved that "whenever an appeal is made to the country the elections will again be strenuously contested by the Liberal party."

Health Authorities

Conduct Investigations

Hundred People In Bowmanville, Ontario, Suffer From Ptomaine Poisoning

Bowmanville, Ont.—Health authorities are taking extra precautions and conducting investigations as the result of the second outbreak of ptomaine poisoning here in four days, during which 100 persons have been affected in varying degrees.

The first outbreak occurred when scores of children and adults were poisoned by contaminated milk. The second and more violent cases occurred at a Sunday school entertainment and supper. Tainted salads are believed to have caused the outbreaks.

Gets Month's Reprieve

Ottawa.—A reprieve until July 19, has been granted to John Ivanchuk, convicted of murder, who was sentenced to hang on June 21. Cabinet, having considered the case, has decided to put the execution off for a month. In the meantime it is expected that new evidence bearing on the case will be submitted to the federal authorities for consideration. Ivanchuk was convicted of the murder of License Inspector Harry Constable at Cochrane, Ont.

Forty Believed Drowned

Bogota, Colombia.—Forty persons are believed to have drowned and more than 100 injured in the practically total destruction of the town of Sevilla by floods from the Guilaque river after a landslide from a hill into the river had caused it to change its course. Sevilla, which is in the department of Cauca, has about 6,000 inhabitants.

May Revise Tariff

Drastic Changes Considered By Dominion Government In Report

Toronto.—The Toronto Globe published the following despatch from its Ottawa correspondent:

"Tariff changes which will have a revolutionary effect on Canada's external trade, are under consideration by the Dominion cabinet. In response to demands from all parts of the country for action, the government was taking preliminary steps toward what will undoubtedly be the most drastic revision of fiscal policy of the present century.

"Present prospects are that the vital changes will take the form of a material increase in the British preference, if not the inauguration of complete 'free trade' on the bulk of British or Empire goods, while the general tariff, which applies to imports in the United States will remain stationary."

DRIVE AGAINST RUM RUNNERS ALONG BORDER

Windsor, Ont.—With a warning by Attorney-General Price that crime would not be permitted within the borders of the province of Ontario and with the United States blockade tightening, rum runners are continuing their activities along the border. Reports told of feverish activity at the export docks as cargoes of liquor destined for United States River and lake ports were being loaded.

Arrested by the reports of the kidnapping of a newspaper photographer and revolver battle between rum-runners and a United States custom patrol cutter, Attorney-General Price announced that if necessary he would double the provincial police along the Windsor-Niagara Falls sector to protect Canadian citizens.

It is along this section of the border that the battle lines are most closely drawn due to recent strengthening of the United States preventive forces.

As a result of the statement of the attorney-general, the rum-runners may find their activities on the Canadian side of the line more restricted. The attorney-general emphasized that crime would not be permitted within the borders of the province.

Meanwhile, reports from border points indicated that despite the drive against the rum-runners, activity at the border export docks continued. Rum-runners were reported active at many points.

A party of rum-runners engaged in a pistol battle with a United States customs patrol cutter, the cutter being forced to return to port after being peppered with bullets, while the rum-runners retreated to the Canadian shore. The rum-runners crouched behind bags, apparently filled with liquor, as they exchanged shots with the customs men.

At Dunkirk, N.Y., two men were arrested when a United States coast-guard boat captured a motor boat loaded with beer.

Two recent developments were placed before Dominion government officials. The department of external affairs received a report on the incident at Sandwich when it was claimed a private speed boat, not registered in the liquor traffic, was fired on by a United States patrol boat. Should further investigation warrant, the department will investigate this affair. The department of national revenue was notified of the kidnapping of the photographer of a border cities newspaper but the opinion was expressed that it did not come within the scope of the department.

IN BRITISH CABINET

Margaret Bondfield, successful Labor candidate, is the first woman to be appointed to a British cabinet. She is the new minister of Labor.

Alberta Adopts Old Age Pension

Movement Now Accepted By All Provinces In West

Ottawa.—Answering the communication of Hon. Peter Heenan, minister of labor, informing them that an order-in-council had authorized Mr. Heenan to act immediately and the reply came back to him within a short time of Alberta's notification. Alberta will adopt the pension system starting August 1, 1929. British Columbia, Saskatchewan and Manitoba have for some years enjoyed the old-age pensions scheme. Alberta's entry into the scheme links up the entire west in the movement.

Will Enter Competition

Canadian Mounties To Enter Rifle Matches At Camp Perry, Ohio

Washington.—Four Royal Canadian Mounted Police will compete in the National Rifle and Pistol matches at Camp Perry, Ohio, in August. The Canadians, the highest in 1929 revolver team competition, will fire against United States entries in the international police pistol match August 31. The men are Corporals A. D. Ford, D. E. Forest and J. G. Pelletier, of Lethbridge, Alta., and Constable J. D. O'Connell, of Ottawa.

Women Writers Elect Officers

St. John, N.B.—Mrs. Margaret Lawrence, of St. John, was elected president of the Canadian Women's Press Club, at the concluding session of the annual convention, Western provincial vice-presidents are: Manitoba, Miss Elizabeth Long; British Columbia, Miss Winifred Lee; Alberta, Miss Evelyn Murphy; Saskatchewan, Miss Clara Holmes.

Sacrifices Life For Child

Kingston, Ont.—Kenneth McIvor, the four-year-old child of whom Fred Denys sacrificed his life by hurling himself from the wagon he was driving on the highway five miles from here to sweep the child out of the path of an oncoming auto, died in hospital several hours later, never recovering consciousness after being struck by the machine.

Trotzky Would Enter U.S.

Constantinople.—Leon Trotzky, exiled Soviet leader, intends to apply to the United States government for permission to enter the country, according to reports current here.

Cabled French Airmen

Lindbergh Sends Message Of Congratulations To Trans-Atlantic Flyers

Paris.—Jean Anoulet, Rene Leferve and Armand Lotti, Jr., received by cable congratulations from Col. Charles Lindbergh, for their transatlantic flight from Old Orchard, Maine, to Comillas, Spain, in the Yellow Bird.

The colonel's message, addressed to all three of the aviators, said: "On returning to New York I have just learned of your successful crossing. Please accept my sincere congratulations and best wishes."

The French flyers immediately cabled him in reply:

"We thank you heartily for your affectionate telegram. Our greatest claim to glory has been to have followed the route you, traced two years ago with incomparable mastery in your flight from New York to Paris."

"Your magnificent example of courage, of tenacity, of science as a pilot and navigation guided us every instant of our route. We address to you our most cordial and respectful salutations."

WILL NOT FOLLOW LEAD OF U. S. IN SHAPING TARIFF

Grand Bend, Ont.—Independence of action on tariffs is the policy of the government, and upward revision of tariff schedules by the United States, being a matter entirely for the United States to decide, calls for no retaliation or reprisal on the part of the Dominion. This was the key-note of addresses by Hon. Ernest Lapointe, minister of justice, Hon. J. C. Elliott, K.C., minister of public works, and Hon. W. D. Elser, minister of national revenue, who spoke at a picnic here under the auspices of the South Huron Liberal Association.

Mr. Lapointe made extended reference to policies advocated by Hon. R. B. Bennett, Conservative leader, at present on a tour of western Ontario.

"The remedy he suggests is that we should adopt American methods in our fiscal policy," Mr. Lapointe said. "But our ideas and ideals are Canadian and British, and we won't follow American methods. We will shape our policies to local and other-wise at Ottawa. We won't take them from Washington."

"We are satisfied with Canadian methods and British doctrine and if necessary we will find other outlets for our trade. We always have in mind Canadian interests. Since 1921 have not the Canadian people been satisfied with the way our financial policies have been shaped under Mr. Robb, whose budgets we are proud to mention during the last election?"

"We have not been dictated to by American theories. We have tried to meet the problems of Canada on conditions were at the time, British preferential trade treaties have been part of our policy."

"The Opposition lately has been coming to adopt that policy, but the fathers of British preference were the late Sir Wilfrid Laurier, and the Rt. Hon. W. S. Fielding. From the start it was successful and our exports to Great Britain increased \$75,000,000 the first year. Last year they reached \$446,000,000 and we bought only \$193,000,000 of British goods. But if you expect the nation of Europe give you trade, you must buy from them. Trade, after all, is exchange."

"In view of the figures I have quoted I cannot understand the complaint from some quarters about British goods being here which they have come to sell us. We have concluded forty-three trade treaties with other nations and our exports as a result were \$220,000,000 in 1929. "We will continue to shape our financial policies on a national basis in the interests of all sections in Canada," Mr. Lapointe continued. "We will legislate not for one class, but for all classes and groups in the Canadian people. A country which is as large as Europe cannot hope to live to itself, nor to erect barriers with the rest of the world. The future is with us."

"Let us not look at the past too, reasons of doubt and despair, but to the future for reasons of hope and belief. God and nature are with us and nobody is able to fight for long against God and nature. Our guarantee of success is within ourselves. We continue to improve our method of production and you may be sure our prosperity will continue."

PREDICTS WHEAT PRICES WILL BE HIGHER 1929-30

Washington.—Using condition reports received from all over the world, the United States Department of Agriculture announced that, exclusive of Russia and China, a smaller wheat crop five per cent. smaller than last year was to be expected for the 1929-30 season.

This reduction, the department said, would probably more than offset the 1928-29 carry-over and "it therefore seems likely that world market prices for wheat through the 1929-30 season will average somewhat higher than they have through the 1928-29 season."

The department summary of prospects was made up from seeding, winter killing and areas remaining for harvest up to June 12. The area to be harvested was expected to remain approximately the same as that of the past year, but higher crop forecasts reported to date were expected to be more than offset by lower yields in Canada, Argentina and some European countries.

The carry-over, the department said, would likely be about 150,000,000 bushels in excess of the stocks on hand July 1 last year. In the United States the carry-over may be as low as 225,000,000 or as high as 270,000,000 bushels by July 1, depending on how much wheat has appeared, as feed or in other ways not accounted for.

The year began with an estimated crop of 903,000,000 bushels and a carry-over of 129,000,000, making the domestic supply 1,032,000,000 bushels. Exports to July 1 were estimated at 106,000,000 bushels as compared with 206,000,000 bushels exported last year.

Fatal Airplane Crash

Three Men Dead When Seaplane Plunges Into St. Lawrence River

Montreal.—Captain the Hon. J. C. Jervis, M.C., 32, elder son of Lord St. Vincent and former aide-de-camp to the Governor-General of Canada, and two companions, were instantly killed when a seaplane crashed in the St. Lawrence River between Point St. Charles and Nun's Island.

The other victims were Pilot C. S. Caldwell, of the Canadian Vickers, and Dr. Wm. D. Morris, 28, of Montreal.

The plane was flying down the river at a very low altitude when it struck two high tension wires carrying electric power from the city to Nun's Island.

According to eye-witnesses there was a burst of flames just as the machine crashed into the water and turned over.

Rescue parties were quickly on the scene, but without the necessary facilities for getting at those imprisoned in the cabin of the plane, and it was nearly two hours before the first body, that of Dr. Morris, was taken out. Two hours later, the body of Captain Jervis was recovered.

Dr. Morris came here two years ago from Victoria, B.C., where his parents reside. He was graduate of the University of Alberta and McGill.

Experiment Fails

Hong Kong.—Army aviators carried out rain making experiments above Hong Kong, dropping a chemical known as "Deolin" from the clouds. The experiments were not successful. Hong Kong is suffering from severe water famine necessitating drastic action to replenish its supplies.

Air Line Crash

Lydd, Eng.—The coroner's inquest on the four victims of the air liner 'City of Ottawa's' crash into the channel, returned a verdict that the persons had lost their lives by drowning caused by an accidental fall of the aeroplane into the channel.

Lacks Authority

Ottawa.—The exchequer court has given judgment that the Sun Life Company has no authority under its charter to increase its capitalization from \$2,000,000 to \$4,000,000. The judgment has been issued by Mr. Justice McLean.

Receives Honorary Degree

New Haven, Conn.—Vincent Massey, Canadian minister to Washington, had conferred upon him the honorary degree of laws, by Yale University.

Prince Henry, third son of the King, receives at a garden party held in honor of His Majesty's birthday, at Victoria, B.C., Lieutenant-Governor Randolph Bruce is on the right, and Mrs. Helen Mackenzie, the latter's niece, is on the left. The Prince is returning to England by Canadian Pacific Steamship and Railway from Japan.

NOTES AND COMMENTS

Monday next is the 62nd anniversary of Dominion Day. It brings to mind forcibly the wonderful strides made in Canada since the scattered provinces were organized into one splendid confederation. Population has not increased to the extent that some may have hoped for, but that is not to be regretted, for the too rapid filling up of a country may produce problems in unemployment which would be a burden. A general survey of what has been accomplished gives cause for pride. Comparing our Dominion with older countries, the progress made is remarkable, and there are no more progressive cities or towns in the world than are found in Canada. The problems of immigration into a comparatively new country have been overcome and assimilation has gone on in an unobtrusive manner, the governmental authorities seeing to it that as equal a balance as possible is maintained between the various nationalities permitted to emigrate to Canada.

Every loyal Canadian, no matter what the land of his birth may have been, should observe with pride the anniversary of Confederation on Monday next, and feel glad that he is a citizen of a country which gives the finest opportunities in the world for individual enterprise.

The suggestion of redistribution of seats in the Alberta legislature whereby two or three more representatives will be added, reminds one that there has been no political controversy of any kind in this constituency for some time, causing a lack of interest. In fact so quiet has the local member been, that a large number of people will not know who represents them in the provincial legislature.

Cardston will celebrate Dominion Day at Waterton Lakes Park. The condition of the road from Pincher Creek to the park will decide how many from the Pass towns will take part in the celebration there. It is a lovely spot, and doubtless there will be a large number there.

It is the desire to pry into the unknown that makes for progress. People will take risks to find out something from actual experience. Were it not for this trait in human nature, we would not have the fast-moving automobile or the airplane, and many other things that have come into general use and are now regarded as necessities. The stand-patters accomplish nothing and contribute very little towards progressive movements. It is the people who are seeking new experiences, who are not content with things as they are, who make for the progress of the human race.

The tourist camp here is rather a joke. It has a sign board at the entrance, large letters denoting that it is free. Strangers drive up, notice the sign, and proceed into the park. They give a glance around, find there is very little in the way of accommodation to induce them to remain, and pass on. The odd one remains, possibly because of being too tired to proceed further. This sign should either be taken down, or some provision made to accommodate the tourist, and a charge commensurate with the service made. No tourist objects to paying for services rendered. The caretaking of the camp would provide a job for someone, and would possibly earn sufficient revenue to recompense the caretaker for his work. It is worth trying out. It is an attractive spot with its running stream to soothe the tired nerves of travellers, but it needs more than that to induce them to stay awhile.

The anxiety and tenseness among school pupils during the past week is just about over, and they will now be in more or less a state of suspense awaiting the results of their examinations. Some take their studies very seriously, others show very little concern. But there is a feeling of gladness among teachers and pupils alike when exams are over and school "breaks up" for the long midsummer vacation. It gives all a chance to recuperate and the holiday is sufficiently lengthy to create a desire to get back again. But apart from the results of the exams, what counts most in after life is the manner in which the young people apply themselves to the trade or profession they may follow when they embark on a career for themselves. A good education is a splendid background for any person, but then one's education is never finished, and those who would be successful must utilize what they already have learned from experience to still further advance themselves in usefulness not only to themselves but to the world at large.

The ten per cent. discount on taxes for prompt payment is easier saved than earned, and that many appreciated this was evidenced by the number who lined up at the secretary's office last Saturday and Monday. Besides saving money to themselves, the prompt taxpayer facilitates the financing of the town's business.

NOT only is Pontiac a BIG Six, with the power which you would expect a Big Six to possess... but this power is always under the immediate and easy control of the driver.

Touch the accelerator and the great surge of power from Pontiac's Big dynamically-balanced Six-cylinder engine... developed by the famous GMR high-compression head... whisks you out in front of the traffic line.

Touch the brake pedal... and instantly Pontiac's big, internal-expanding, protected brakes bring you to a smooth, silent stop.

Take a trial ride in Pontiac and discover for yourself that Big Six quality, beauty and performance have definitely entered the low-priced field.

Flying Fingers and Flying Heels

Helen McGregor, of Winnipeg, "The Flying Pianist" whose "flying fingers" earned her unofficial title, and Myrtle Cook, whose flying heels won her the official title of Amateur Lady Champion of the World at the Olympic Meet last year, take a lesson in navigation from Captain Dott of the Canadian Pacific liner "Montrose."

Miss Cook, who now covers women's sports for the Montreal Star is not unfamiliar with the air, having flown the English Channel on several occasions when on the other side at athletic events. Miss McGregor is one of the few women familiar with the controls of trimotored planes. She travelled west as a passenger in the Junkers plane which was landed at Montreal from the Canadian Pacific freighter "Beaverbrae" for the Western Canada Airways, Limited, by whom it will be used in air mail and express services.

Thrilling Experiences

(Continued from Page One)

mened, and at the bottom of the canyon those who had already come down heard a terrific crash. The sound being intensified by the perpendicular rocky walls. But it proved not to be as serious as it sounded, for it was three of the party accidentally sliding part of the way, but who were stopped in their perilous flight by getting a grip on a rock.

After reaching the timber line, there was another four-mile walk to the camp. The intention had been to reach there by 7:30 p.m. but it was 10 p.m. when the party reached there, and the three members of the party who had returned to camp during the afternoon, thinking the rest of the party had left their belongings in the darkness, decided to return to town and inform relatives. The biggest regret of the returning clubbers was that it was the car with the "cats" and groceries that had returned to town, but fortunately the two men in charge of the large herd of sheep pasturing there, George Walker and J. Mackie, of Lethbridge, had a blazing log fire and very soon prepared coffee, and rose nobly to the occasion in furnishing bread and butter and strawberry jam, which to the famished party was really a "lifesaver."

After half an hour around the campfire, the party resumed its walk towards Coleman, and before reaching the main road, met the cars of H. C. McBurney and W. L. Rippon, who not only drove the party out there, but spent over three hours touring over the road around both sides of the mountain trying to get track of the party.

To bring to an end a perfect day the party concluded with a wind up lunch at the Coleman Cafe, where toasts to Gardner and McCallum were honored for their successful leadership during the day, and to the two ladies, Mrs. Rippon and Miss McDonald, for completing the ascent.

On the previous Sunday Luke Lindoe, jr., Bob Pattinson and Ed Driver made the ascent. Neither party discovered the records left in a cairn by previous climbers, but found the can of black paint taken up in 1921, when G. R. Powell, his son Ross, Jack Wood, a minister from Fernie and a Mr. Stokes, who was local guide at that time, made the climb to the summit, and were photographed there while a very heavy wind swept around the mountain.

A Good Start Means a Long Life

The New Model A Service Policy Adopted By All Ford Dealers Insures Proper Attention While Your Car Is New

To make absolutely sure of a correct start on the long life of satisfaction built into every Ford car, we have established a policy of free service at 500, 1000 and 1500 miles.

No charge is made for labor incidental to this service, except, of course, where repairs are necessary through accident, misuse or neglect. The only charge is for new oil.

The critical period in the life of an automobile is when it is new. Proper care and attention during the first few hundred miles will lengthen its life and prevent unnecessary trouble later on.

Coleman Garage Limited

An Expert's View on Home Town Newspaper Advertising

The Advertising Audit and Information Bureau, of Toronto, sent out the following to retail merchants:

"Unconsciously dealers oft-times hurt their own business, and even their own town by lending themselves to many of the so called dealer co-operative initiatives by those papers that openly encourage and accept for publication mail order advertising which for years has taken such heavy toll from the legitimate business of the small town merchant."

"After all we believe that the only advertising co-operation a dealer can give or profit by is advertising in the home town newspaper. We believe that 75 per cent of the west is the natural market of the home town merchant."

WORLD HAPPENINGS
BRIEFLY TOLD

Manitoba contemplates celebrating its diamond jubilee on July 15, 1930. It was announced at Winnipeg by premier John Harkin.

The London Daily Sketch said Premier MacDonald had refused Leon Trotsky, former Russian war chief, permission to enter Great Britain as he requested recently.

The Japanese naval training cruisers "Akama" and "Iwate" will visit Vancouver on August 10-12. It was stated at the Japanese consulate there.

Albert Voigt, a German, has left Seward, Alaska, in a 16-foot, collapsible walrus skin sailboat for New York. He hopes to complete his 6,700-mile trip in six months.

Charles Colebrook Patterson, eldest son of the late Hon. J. C. Patterson, former lieutenant-governor of Manitoba, is dead. He was born in Ottawa, in 1868, and for a number of years was his father's secretary.

Flight tests will soon be made of television apparatus calculated by its inventor, C. Francis Jenkins, Washington physicist, to reproduce conditions as seen from an aeroplane, on a screen miles away.

Japan's co-operation in any disarmament program negotiations that Premier Ramsey MacDonald and Ambassador Dawson may have begun has been promised by Premier Tanaka.

France is preparing to bring into force a wide scheme of social insurance. It will cover sickness, old-age incapacity, maternity benefits and, to a certain extent, unemployment.

Captain A. N. James, inspector in the Royal Canadian Mounted Police, who has been stationed at Vancouver for some time, has been appointed inspector in charge of the Arctic sub-district, with headquarters at Herschel Island.

Representatives of all the provinces will be called together by the federal government next autumn to consider the federal and provincial financial problems, according to intimations received at the Parliament buildings, Victoria.

Germans Invent New Ship

Safer and Cheaper Than Existing Models Is Claim

A new kind of ship is being built by a German ship building company, which, it is expected, will be safer and more economical than existing models. The feature of the invention is the unusual shape of bow and stern, designed to prevent water from rather than to each side, and to reduce friction on the sides. It is said to cause the water to flow by the shortest route from bow to stern. Three high-speed fishing trawlers recently have been built by Douching on the new principle. The builders announce that not only is the fuel consumption reduced 25 per cent. compared with other vessels of equal size, but that rolling and pitching even in heavy seas is reduced to an extent not previously attained. Test trips also have shown excellent steering capacities.

A Severe Attack of
Dysentery
Checked by 4 Doses

Mr. I. Burtonwood, 620-22nd St. W., Saskatoon, Sask., writes: "My child, when only seven months old, had a very severe attack of dysentery, and after three days of treatment with other things we decided to use On this day his bowels moved twenty-three times in eleven hours, but four doses checked it."

"A short time ago we offered it to a neighbor whose baby was troubled, and it too was relieved within thirty hours. We have always kept a bottle of 'Dr. Fowler's' handy at all times. This medicine has been on the market for over 80 years; put up only by The T. Milburn Co., Ltd., Toronto, Ont."

Designs On Totem
Poles Are Polynesian

Art Of B.C. Indians Similar To That Of South Seas
What strikes one most of all in looking at the arts and crafts of the British Columbia Indians is the general "Polynesian" character of the designs.

The totem poles are obviously related to those of New Zealand, the models of canoes and painted paddles recall the South Seas generally, and in some of the stone carvings there are hints of Easter Island.

On the other hand, the carvings in ivory and horn appear to link up to the early Chinese jades.

If these impressions are just they support the suggestion which has been made of a "Pacific" school of art, antedating the earliest Chinese art we know; and we might venture that whereas partly through Greek and Indian contacts, Chinese art went on developing, the arts and crafts of British Columbia remained more or less in the Pacific phase.

It is said that the Indians of British Columbia differ from those of other parts of Canada and the United States by a definite Mongolian influence.

Further it is known that the Russians were early visitors to British Columbia, and, sure enough, in the carved shaft objects there are distinct affinities with "Scythian" art. Owing, possibly, to the complete absence of pottery among these Indians, basket weaving appears to be the art that developed most consistently, baskets closely woven of cedar bark being used for cooking and carrying water; and their decoration, generally geometrical, but occasionally representing natural forms—as of the skua gull—in a convention arising out of weave, throwing light upon the supposed origin of pottery—out of basket making, first by doubling the basket with clay, and then by using clay alone, the decoration being transferred from one medium to the other.

Winnipeg Newspaper Union

THE NEW PEPLUM BLOUSE

Simple blouse of printed blue crepe with peplum shaped so as to give smooth flat hips. Shirring at each shoulder and bow trimming are charmingly feminine details. Style No. 464 can be worn with 1 1/2 yards of 40-inch material with 3/4 yard of 36-inch contrasting in the 36-inch size. The pattern which is so easy to understand, can be had in sizes 16, 18, 20 years, 36, 38, 40 and 42 inches bust. Off-white ivory tone in crepe satin is stunning to wear with black pleated silk crepe skirt, or black faille silk crepe jacket costume. Printed voile, handkerchief linen in line shade, vivid red crepe de chine and georgette crepe in modernistic print in foliage green are attractive ideas. Pattern price 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

We suggest that when you send for this pattern, you enclose 10 cents for a copy of our Spring Fashion Magazine. It's just filled with delightful styles, including smart possibilities, and cute designs for the kiddies.

A Remarkable Hotel

Built On Swiss Alps and Is 11,480 Feet Above Sea Level

One of the most remarkable hotels in the world is the Jungfraujoch, perched high up on the Jungfrau, in the Bernese Alps, Switzerland, 11,480 feet above the level of the sea. Built of stone and iron, the hotel is welded, as it were, into the sheer rock of the famous mountain. Snow surrounds it eternally, and, in winter, it is buffeted by the fiercest blizzards of the Alps. But it gives hospitality and warmth to climbers and to the tourists who visit the mountain by the funicular railway from above Interlaken. From the windows of the hotel lounge one often looks out up on a world of clouds, through which some of the high peaks of the Bernese Oberland stand out like rugged islands.

Nearly every member of the hotel staff is an expert mountaineer. For though the funicular runs to within a short distance of the hotel there are often long spells during the winter when the heavy snows prevent all communication with the outside world. Then, the only means of reaching civilization is by ski along dangerous mountain tracks. The Jungfraujoch hotel had its origin in a ramshackle shelter built by workmen when engaged in the construction of the funicular in 1912. From this dwelling where they ate their simple meals of beer and bread has arisen the hotel that is unique in the world.

Recipes For This Week

(By Betty Barclay)

BOSTON STEAMED BROWN

BREAD

- 1 cup Graham flour.
- 1 cup corn meal.
- 1 cup flour.
- 1 teaspoon salt.
- 1 teaspoon soda.
- 1 teaspoon baking powder.
- 3/4 cup sorghum or molasses.
- 2 cups sour milk.

Mix and sift the dry ingredients. Mix milk and molasses and add last. When well mixed, fill buttered mold half full. Cover tightly and steam for three hours. Unmold and place in moderate oven for 15 minutes. Serve hot or cold.

FRUIT CREAM CUSTARD

- 4 oranges.
- 2 eggs.
- 1/4 cup sugar.
- 2 teaspoons flour.
- 1/4 teaspoon salt.
- 2 cups milk.
- 1/4 teaspoon vanilla.
- 5 tablespoons sugar.

Beat egg-yolks, add 1/4 cup sugar, flour and salt and mix thoroughly. Add milk and cook in double boiler until thick enough to coat spoon. Cool, add vanilla and turn into serving dish containing peeled and sliced oranges. Beat egg-whites with 1/4 cup sugar and fold into mixture. Bake 5 tablespoons sugar. Heap on top of custard and serve.

Canadian Delegates

For Press Conference

Dominion Will Have Largest Representation At Imperial Meet

Next Year

J. H. Woods, managing editor of the Herald, Calgary, Alta., recently called for London, where he will consult with the council of the Empire Press Union in connection with the Canadian contingent of press delegates to the Imperial Press Conference, being held next year. Mr. Woods said that Canada will be sending 20 delegates to represent the 60 members of the Union in Canada. This is the largest representation of any part of the Empire. The last conference was held in Australia in 1925, and the one previous to that, in 1920, was held in Canada. The Imperial Press Conference is being held in London, England, in June of next year.

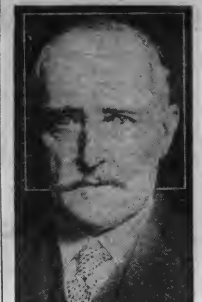

How Names Were Given

Europe is derived from Europa, in Greek mythology a woman who was carried off by Jupiter, who came to her disguised in the form of a white bull and bore her to the island of Crete. The Greek word is said to be derived from the Semite "ereb" meaning darkness, evening, sunset. Asia is said to derive its name from the Semite word "asu" meaning going forth, or blue of the sun.

Trail Riding In Rockies

Trail riding is one of the favorite pastimes of the national parks in the Canadian Rockies. This is one of the best ways of seeing all, and some of the points of interest. In Banff, trail trips of ten, twenty-five, or fifty miles may be taken by the visitor on horses trained to the work and altogether trustworthy.

AMBASSADOR MAKES DECISION

Sir Esme Howard, British ambassador to the United States, has announced that he will not sign any more liquor regulations for the embassy at Washington, thereby waiving the diplomatic privilege of importing liquors.

The "Canadian Mediterranean"

Montreal Journal Sees Important Future For The H.B.R.

Commenting on the completion of the Hudson Bay Railway, Le Devoir, of Montreal, edited by Mr. Henri Bourassa, expresses the belief that the new line to the Canadian Mediterranean will prove a valuable addition to Canada's transportation system, not only as a development road, but as an export route. The richness of the country through which the railway passes has already been proved. Le Devoir states, foreseeing large mineral, pulp and paper, and metallurgical establishments along the road. It applauds also the manner in which the Government is assessing data on the navigability of the Bay, and concludes: "It is improbable that the route will become a serious competitor of the St. Lawrence, but it is sure to be useful, and will become so more and more as seamen become familiar with navigation conditions."

Hunts Grizzly In Spring

Hunting grizzly bear in the spring is good sport, according to Walter W. Lang, of Milwaukee, who has returned from the Canoe River country out of Mount Robson, B.C., with one grizzly hide and a couple of brown bears to his credit. It is Mr. Lang's fourth year in this part of the Rockies. He was accompanied on his hunt by Richard Lacey, also of Milwaukee.

Large Area Photographed

Thirty-three thousand, eight hundred square miles were covered in Canada during the season of 1928 by oblique aerial photographs taken by the Royal Canadian Air Force by the Topographical Survey, Department of the Interior.

SUNDAY SCHOOL LESSON

JUNE 30

Golden Text: "I have loved thee with an everlasting love; therefore with lovingkindness have I drawn thee."—Jeremiah 31:3.

How many Christians there are who, like those priests, are miserable because unanxious to take on every hand opportunities call for the devotion of their energies, they are unwilling to lay hold of them.—J. Stunt Holden.

If ever there was a suffering servant, despised and rejected of men, that servant is the Jewish people.—Jewish Chronicle.

Take the task he sends you gladly. Let his work your pleasure be; Answer quickly, when he calleth, "Here am I, send me, send me."—Daniel March.

With bonds and scorn, and evil will The world requites its prophets still.—Whittier.

He who shows me the achievements of a brother man touches my lips with a live coal from of the altar.—Carlyle.

We are but poor judges of form or comeliness, and what is lustreous with perfect beauty in God's eyes may be, and generally is, plain and dowdy in men's.—Alexander MacLaren.

God's goodness hath been great to thee; Let never day nor night unhallo'd pass.—But still remember what the Lord hath done.—Shakespeare.

But still remember what the Lord hath done.—Shakespeare.

Honor Belongs To England

Frenchman Did Not Originate Idea Of Artificial Silk

Most of the credit for the idea of manufacturing artificial silk goes to France, and the honor has usually been given to Reaumur, a French naturalist. Actually, the first known suggestion was made by an Englishman, Dr. Robert Hooke. In 1664 he published a book, "Micrographia," in which he described a microscopic examination of real silk, and suggested the possibility of producing a similar thread by mechanical means. The first machine to produce an artificial thread was made in England. In 1840, Mr. Louis Schwabe took out the first patent and erected his machine, embodying spinnerettes, in Manchester, but the product failed to attract and Schwabe committed suicide three years later. Today the spinnerette is in full use, and £135,000,000 is invested in the industry in England alone.

University Of Alberta

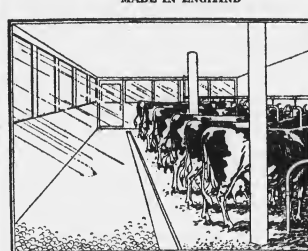

The University of Alberta has just celebrated its twenty-first birthday. The first president, Dr. H. M. Tory, now president of the National Research Council of Canada, and the first premier of the province, Hon. A. C. Rutherford, participated in the anniversary ceremonies.

Makes For Unemployment

One of the causes of unemployment in Europe is that our working lives have been prolonged, declares a statistician. At one time, he says, "too old at forty" was the cry throughout the world, but we have now found that we are not too old at 60 or 65.

WINDOLITE The Improved Glass Substitute

MADE IN ENGLAND

WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, dairy sheds, country houses, hotels, schools, and all buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandas, school factories, hospitals, sculleries, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 lbs., while a square yard of glass of ordinary thickness weighs about 135 to 140 lbs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price £1.50 Per Square Yard, f.o.b., Toronto.

Use WINDOLITE and let YOUR PLANTS YOUR CHICKENS YOUR CATTLE Back in 100 % Sunlight Send for booklet "WINDOLITE"

Montreal To Have
Giant Terminal

Will Solve Traffic Problems Of Canada's Largest City

The bill for the new Canadian National Railways Montreal terminal, which will admit of enlargement to capacity equal to that of the present New York Central terminal in New York, exclusive of the latter's special suburban area, has passed the Senate and now has full parliamentary sanction. This, at a cost of \$20,000,000, will give Montreal a terminal comparable with any in America.

The Canadian National terminal will be set just below St. Catherine Street, between the shopping and financial districts of Montreal. Its construction will change the entire lay-out of the central portion of the city and by its connections underground and by overhead viaducts through the city, will offer a solution of some of the present urgent traffic problems of Montreal and passenger of Canada's largest city.

At present freight is only shifted between the east and west sections of Montreal on the Canadian National lines by use of the heavily loaded lines of the Barrow railways or by a haul over the company's own lines to Turcot via Joliette, Rinfret and Eastern Junction, a distance of 108 miles. The building of 17 miles of new line in connection with the new terminal will reduce this distance to 20 miles, effecting great economies in time and cost. In addition new industrial and residential districts not presently served by any transportation facilities will be rendered available.

The intention of the Canadian National is to offset the loss of expenditure of \$50,000,000 by leasing the surface areas above the tunnels which will connect with the station. It is pointed out that the New York Central have adopted a similar plan in leasing the surface areas near the Grand Central Terminal in New York.

The station facilities will be almost entirely below ground. New streets will be built running through or over the structure. A double tube subway for vehicles will be provided running from south to north on St. Catherine Street. All the locomotive power will be electric.

Sir Henry Thornton, president of the Canadian National Railways, has stated that the plans admit of the operation of the terminal jointly, if the Canadian Pacific Railway decides later to enter into the project.

"What would you say to anyone who sits himself down on your hat?"

"I should call him an idiot a stupid ass."

"That's all I wish to know — you are sitting on mine!"

It is no good being good unless you are good for something. The tragedy of life is not that we know, but that we are not knowing that you don't know.

In the fine old days of side burns and beaver hats, the name McClary meant almost as much to good housewives as it does in these Modern Days.

The Singing Fool

By HUBERT DAIL

Copyright, 1923, Warner Bros. Pictures, Inc.

CHAPTER I.

Cool gray dawn of a work day in the modern Babylon—New York! The black curtain of night rose silently, seeming to trail ghostly spirals of mist. Against the sky's flat monotone the irregular and fantastic shapes of the skyscrapers stood out boldly—powerful and mysterious creations of Man.

In the dark canyons of the city streets dark figures moved purposefully toward their destinations. Factory hands with lunch kits tucked beneath their arms, stalwart steel-structure men who carried the pride of craft in their way of walking, slim girls with the vivid memory of the night's romantic dreams still shining in bright eyes.

But uptown, in the glittering gay places of the city, was a sharply contrasting scene. In the "roaring forties" and "nitty fifties," where denizens of Broadway and fashionable Park Avenue "make whoopee" through the sleeping hours, the night clubs were ending their day. Through the tinselled doorways came lovely ladies in ermine coats and jeweled slippers, and men with silver-tipped walking sticks, and top hats at rakish angles. Their heavy footsteps were broken occasionally by hysterical laughter.

In the lobby of the resplendent Plaza Club, Marcus, the revue producer, helped a pretty young actress into her fur coat. As he did so his arm went around her gingerly for a moment, while she turned her graceful head and glanced knowingly into his eyes. Another man and girl of the Marcus party waited nearby.

"Well, let's call it a night," suggested Marcus, his hand resting affectionately on the girl's arm.

"No—please! Let's not go home. We can have lots of fun yet."

Her tone was wheedling, her smile gay. She was playing up to Marcus, first, because he was the great Marcus, secondly, because she wanted her own way. And now she turned to the other couple.

"Don't let him send us home yet," she said in the tone of a spoiled child. "We're having fun. We can go to some other place."

The other man and girl nodded, and the actress turned to Marcus.

"You see?"

Marcus sighed, then made one last stand.

"All the other places will be closed," he insisted.

"No, they won't. Blackie Joe's is open—the fun is just starting down there."

The revue producer made a grimace of distaste. "But that's such a dump."

Too Much ACID

Many people, two hours after eating, suffer indigestion as they call it. It is usually excess acid. Correct it with an alkali. The best way, the quick, harmless and efficient way, is Phillips' Milk of Magnesia. It has been trusted for 50 years the standard with physicians. An spoonful in water neutralizes many times its volume in stomach acids, and at once. The symptoms disappear in five minutes.

You will never use crude methods when you know this better method. And you will never suffer from excess acid when you prove out this easy relief. Please do that—for your own health—now.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

"Hey, Al! Ringside table for four!"

Al Stone, the head singing waiter and prize comic at Blackie's place, spun about. From their appearance these were important people.

"This way, ladies and gentlemen. Here's a nice spot."

The party relaxed about the round, white-topped table. Then Marcus, czar of the Broadway revues, turned to give the order. He looked up into the handsome, intelligent face of Al Stone, the obscure performer. As he did the actress next to him whispered, "Four beers?" Marcus nodded and repeated the order to Al.

The waiter straightened up and looked about for Blackie. These people were important, but he couldn't fill the order until he had the high sign from Blackie. He caught Blackie's eye and saw his right hand go up with the okay gesture. Then he turned away.

Who were these people he wondered, toward whom the boss behaved so deferentially? Well, it didn't matter. You could see, to look at them, they had plenty of Jack. Later he would sing one of his best comic songs for them. They would probably loosen up with a glib plot.

Someone else was speculating on the Marcus party, too. In the background, several tables away, stood Grace Farrell, the cigarette girl, her slim fingers resting on her tray, which was suspended from her shoulder by a wide ribbon. Her eyes were wide with awe, for she had heard Blackie Joe whisper the words, "Marcus of Broadway."

So this was the legendary Mr. Marcus, who made performers famous. But the thoughts of little Grace were not for herself. They were for Al Stone. Even as Al leaned over to take the Marcus order her gaze had been alight with admiration for the man who was Al Stone.

Al was, how funny he could be, what wonderful songs he wrote!

She tried desperately to catch Al's eye. She must reach him and tell him the name of this distinguished personage!

(To Be Continued.)

Fighting Battles of Humanity

Science Playing Important Part In Lengthening Span of Life

At first glance it may sound fantastic to say that 100 years will be the prime of life, but it should be remembered that such an age was comparative youth in Biblical times. We have gradually shortened the life span as we have adopted artificial modes of living, unwholesome and ruinous dietary habits. Easy living has also played its part. Nature was given a chance in Old Testament days. There is little chance that the public will ever be induced to go back to the natural mode of living which made such men as Methuselah possible. A substitute, however, is arising for Nature, and its name is Science. This great modern force is fighting the battles of humanity; it is attacking man's greatest enemy, disease, and it is winning its fight. Almost daily, new discoveries come to light which make us safer from the ravages of harmful bacilli, which show us how to avoid contagion, and which fight disease, once it is contracted. This work will go on and on, and it is this fact that Professor Klotz bases his prophecy.—Border Cities Star.

Time Has Tested It.—Dr. Thomas' Electric Oil has been on the market upwards of fifty years and in that time it has proved a blessing to thousands. It is in high favor throughout Canada and its excellence has carried its fame beyond the seas. It is twice the price it would be a cheap liniment.

Britain Likes Canadian Honey

Is Growing In Popularity Says Assistant Trade Commissioner

"Honey is fast becoming a staple food on the British breakfast table, and the Canadian product is enjoying a growing popularity," writes Lester S. Glass, assistant trade commissioner at Bristol, in an article in the "Commercial Intelligence Journal."

White clover honey and orange blossom honey are well thought of and South American white honey enjoys a high place in the estimation of the buying public. The British statistics for the calendar years 1924 and 1927, show a total import of honey of 73,251 cwt. and 84,415 cwt., with a value of £201,962 and £221,067 respectively.

"I did what I could, Tony—I told her you had more money than sense."

"And what did she say?"

"She asked me if you had any money."

Use Minard's for the rub down.

"Skinny" Women! Gain Weight Quick

New IRONIZED YEAST adds pounds in few weeks. Results guaranteed—or pay nothing

Why let a "skinny" body, bony limbs and wily bones ruin your chance? Ironized Yeast adds 5 to 15 pounds often in few weeks: clears your skin; banishes wrinkles; gives you new strength. People ask—how does Ironized Yeast work so

Ironized Yeast is two great tonics in one. Weight-building YEAST treated with two kinds of strengthening, blood-enriching IRON used for years by highest medical authorities. The Yeast is also treated with Violet Rays to increase its effectiveness.

Only when Yeast is Ironized is it most effective. Iron is needed to bring out the weight-building, strengthening values of Yeast.

Pleasant tablets. No "yeasty" taste. No gas or bloating.

No excuse to stay "skinny," weak or pimply. Feel and look years younger. Get full size treatment of Ironized Yeast today from any druggist. If not delighted with quick results, get your money back. If inconvenient to buy from druggist, send \$1.25 direct to Canadian Ironized Yeast Co., Ltd., Port Jervis, Ont., Dept. 426-MX.

Turner Valley Oil

Now Producing At a Rate Of Over 350,000 Barrels Annually

In April, 1923, the Turner Valley produced 54,904 barrels of crude naphtha, and 14,303 barrels of crude oil, making a total of 79,207 barrels of oil and naphtha during the month. This is at the rate of over 350,000 barrels annually compared with 43,000 in 1922. From the present rate of increase it seems likely that the Turner Valley will produce well over 1,000,000 barrels this year.

Little Helps For This Week

"My little children, let us not love in word, neither in tongue, but in deed and in truth."—John III. 18.

Not mind passing, for every hand Must find some work to do; Lose not a chance to waken love. Be firm, and just, and true.

So small a light that cannot fade Beam on thee from on high. And angel voices say to thee, These things shall never die.

—All the Year Round.

There are little things that leave us little regrets. I might have said kind words, and perhaps have done kind actions to many who now are beyond the reach of them. One look on the unfortunate might have given a day's happiness; one sigh over the pillow of sickness might have insured a night's repose; one whisper might have driven from their victim the furies of despair.—Walter Savage Landor.

SKY TESTED

Your modern high-speed motor hums the tone of faster transportation. In speed, power and flexibility, the motors of the highway reflect the influence of the motors of the sky.

The oil that was "good enough" for the motor of 1922 is not good enough for the motor of 1923. Higher speeds, higher temperatures, higher compressions, have created more difficult lubricating problems and demand better oil.

Because Marvelube meets the high temperatures and high pressures of airplane operation it is the ideal lubricant for the modern automobile engine. Its rich lubricating properties are inherited from its base—Peruvian Crude.

On the highways as in the skyways, Marvelube gives a smoother performance, lessened depreciation and a real operating economy.

There is a grade of Marvelube refined to meet exactly the specifications of your car, truck or tractor. See the Marvelube Chart at Imperial Oil dealers and service stations.

Competing For Gold Cup

Many Swimmers Will Try England-To-France Crossing This Year

The channel-crossing season is on again.

What Julius Caesar did in a boat in 53 B.C., and Gertrude Ederle did in a bathing suit in 1926, A.D., has been done twice this year on pontoon bicycles, and at least a score of swimmers are in training to do what has not been done since 1923—the swimming of the English Channel from England to France instead of vice versa.

Two bakers, a mattress maker, a couple of stenographers, a nursemaid and a Bohemian mechanic have splashed their way from the coast of France to the coast of England, and it is getting to be odd stuff.

This year the really ambitious swimmers are out to perform the more difficult feat of starting from England and finishing in France, unfavorable currents to the contrary notwithstanding.

Among the men and women who have announced their intention to compete for the gold cup offered for the first England-to-France crossing this year are several who in previous years accomplished the France-to-England crawl.

Other aspirants for channel fame in 1929 include a middle-aged woman with a family of eight, an 11-year-old schoolgirl, a one-legged swimmer and an athletic though white-bearded gentleman of 60.

Big Aviation Merger

Saskatchewan and Alberta Interests Will Make United Bid For Mail Contract

In the biggest aviation merger in the history of western Canada, commercial aviation interests of Saskatchewan and Alberta have united under the name of the Great Western Airways, Limited, according to announcement made by Capt. Fred R. McCall, managing director of the Calgary Flying Company.

Commercial Airways, Ltd., Edmonton, and Commercial Airways, Ltd., Regina, decided at a meeting in Regina, to pool their interests with the Great Western Airways, Ltd., Calgary, and make a united bid for the trans-Canada air mail contract.

Arrangements have already been completed for financing the Dominion mail contract to the extent of \$1,000,000 if it is awarded, Capt. McCall announced.

The Great Western Airways will function as one company under the general management of Squadron Leader G. H. Tudhope, who is at present supervising the airports and airways for the Dominion government. He has accepted this position with the new aviation merger.

A WARNING TO MOTHERS

Watch the Health of Your Little Ones At All Times

No mother can expect that her child will escape all the ills to which babyhood and childhood are subject, but she can do much to lessen the severity of these troubles. The mother should be constantly on her guard to prevent childhood ailments, or if they come on suddenly as they usually do, to have the means at hand to relieve them. Thousands of mothers have found Baby's Own Tablets the ideal remedy for little ones—thousands of mothers always keep the Tablets in the house as a safeguard against the sudden illness of their little ones.

Baby's Own Tablets are a mild but thorough laxative. They regulate the bowels; sweeten the stomach and thus banish constipation and indigestion; break up colds and simple fever and make the cutting of teeth easy. The Tablets are absolutely guaranteed free from injurious drugs and may be given to the youngest child with perfect safety. They are sold by medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

A man, as he manages himself, may die old at thirty or young at eighty.

Because Marvelube meets the high temperatures and high pressures of airplane operation it is the ideal lubricant for the modern automobile engine. Its rich lubricating properties are inherited from its base—Peruvian Crude.

On the highways as in the skyways, Marvelube gives a smoother performance, lessened depreciation and a real operating economy.

There is a grade of Marvelube refined to meet exactly the specifications of your car, truck or tractor. See the Marvelube Chart at Imperial Oil dealers and service stations.

A Better Motor Oil Made from Peruvian crude IMPERIAL OIL LIMITED SELLERS IN CANADA

Personal and Local

William Dixon left on Thursday for Saunders Creek, Alta., to commence work there.

Coleman football team was defeated last evening by Hillcrest, the score being 6-2. It was an even break for most of the game, but the visitors managed to get through Coleman's defence and made it an easy win.

Mrs. J. S. Rogers, prior to leaving for British Columbia to live, was the guest of honor at various social functions among the ladies during the week. On Thursday evening last the ladies of St. Alban's W. A. gave a surprise party at the home of her daughter, Mrs. W. Hogan, and presented her with a handsome leather handbag; on Monday afternoon Mrs. Halliwell entertained in her honor, and on Tuesday evening Mrs. Bowen invited a number of ladies of the Rebekah lodge to her home to bid farewell to Mrs. Rogers. She expects to leave on or about July 1, and will take her granddaughters, Margaret and Edna Hogan, with her to spend their school holidays.

Traffic must be increasing to such an extent that the works committee of the council find it necessary to erect three silent policemen at the street intersection of Second street at the bank corner. Which reminds one that Hillcrest has a silent policeman which no self respecting autoist would dare to take liberties with, such as trying to knock it off its base. It is of sufficient strength and solidity to serve as a monument. A cinch walk in place of plank sidewalk is also to be laid from the church to the town hall, and probably a coat of paint added later to the municipal headquarters. Then it will be all dressed up.

Here and There

(329)
New style bucket seats for first class coaches on Canadian Pacific day fast trains have been introduced on regular trains of the company and are proving very popular. The seats are upholstered in a cool moquette material and are provided on their backs with coat rail, umbrella stand and check holder for the convenience of passengers.

The stock recently visited Canadian Pacific train No. 51 between Laidian and Saskatoon and left a daughter to Mrs. Maryk Alexander on her way with her husband to settle on a farm near Edmonton. Miss Blinning, government commissioner of the immigration department at Quebec, was on the train. She secured a first aid kit from the conductor and took charge of the case. Mother and daughter are doing well.

Sixth annual trail ride in the Canadian Rockies will start from Banff August 1, and end a few days later at Castle Mountain-Bungallow Camp. Seven glacier-fed lakes are on the route which will form half of the long-desired High Line trail from Banff to Lake Louise. The second half will also skirt several glacial lakes. About August 8 the long distance trail ride from Lake Louise to the Columbia icefield will make a start. This icefield covers the largest and most spectacular body of ice left on the North American continent surrounded by peaks as high as 12,000 feet. The second trail ride will take nearly three weeks.

The only golf trophy offered on the continent of America by His Royal Highness, the Prince of Wales Cup, presented to the Banff Spring Golf Club, is the subject of competition by bona fide amateurs on the course there, will be among the outstanding prizes of golf when members of the "Canadian Golfer" tour special train which is crossing Canada from Toronto to Victoria and back this summer, arrive at Banff early in September.

"Scotland and Glasgow are proud of Canada for the part she is playing in trans-Atlantic shipping," T. L. Duff, first-class shipowner and broker, when interviewed at Banff recently. "The building of a ship directly employs about 5,000 craftsmen on the Clyde," he added, "and the supplying of the materials and fittings required in construction indirectly benefits industries throughout Scotland." Mr. Duff said that Scots felt that the Canadian Pacific whose recent ship orders had done so much for Scottish industry, was as much Scotch as Canadian, the founders having been of Scottish descent and so many of the ships of Scottish construction.

During the past five months all milk production records at Strathmore farm have been broken. Strathmore Sylvia in the mature class by producing 29,371 pounds of milk made the mature class record up 4,821 pounds. In the four-year-old class Strathmore Texaline Sylvia exceeded the former farm record by 3,145 pounds with a production of 23,830 pounds. Strathmore Lassie Sylvia, in the three-year-old class, finished on February 22nd, 1929, with 23,568 pounds of milk, or 3,568 pounds more than the former record. To Prancy, in the two-year-old class, however, belongs the premier honours—she broke the farm record of 6,315 pounds. Although only a two-year-old when placed on test, she produced 22,922 pounds of milk which was sold to the Teton Milk Company for \$64.05. Her cost, now one year old, is priced at \$100.

Canada's Future Fruit Champion

Believed to be the tallest man in Scotland, Andrew Kellaghan, of Lesmahagow, height 6 feet 10½ inches, decided he'd become a champion fruit picker, and that Canada was the place for his triumph. Accordingly he joined the first party to train in farming at Carstairs, Scotland, under the Scottish Ministry of Labor's scheme to equip future Canadians. He arrived this summer along with hundreds of other Scottish immigrants who crossed aboard the big Scottish ocean liner Leticia, from Glasgow. His pal is a midget by comparison.

NO mortgage should ever be given without a definite plan for its retirement. Have you such a plan?

Would you pay two per cent additional interest on your mortgage to secure Free Deeds of your farm for your wife at your death?

Two per cent on a mortgage of \$5,000 is \$100 a year; on \$10,000, \$200 a year.

For so small a sum you can bequeath your farm free of encumbrance to your wife, or your son.

Is your farm worth it? Is your wife worth it? Is your son worth it?

Consult a Sun Life representative about a mortgage policy. Free Deeds mean keeping your farm in the family.
